

# Springfield Hospital is changing

## Guidance for healthcare partners

### Summary

#### Introducing Trinity and Shaftesbury

From late autumn 2022, two brand new mental health facilities, Trinity and Shaftesbury buildings, will begin to open at Springfield University Hospital in Wandsworth, the headquarters of South West London and St George's Mental Health NHS Trust.

Designed in partnership with staff, carers, patients and service users, the new buildings will provide outstanding environments to support care and recovery for people across South West London. The facilities will be home to eight existing wards and over 30 clinical and non-clinical teams.

The new buildings are part of the development of 'Springfield Village', a new community with mental health at its heart. This will include hundreds of new homes, onsite shops and a new 32-acre park - the biggest developed in London since the 2012 Olympics.

This is a significant milestone for the Trust and represents positive change for our staff, patients and wider community. It will also be a time of upheaval over the coming months as we transition from old to new facilities within the site with up to

1,000 staff and their teams changing location. We will be working hard to ensure this happens with minimal disruption to our services.

**Moving to our new facilities**

Moves to the new Trinity building take place in early December. The move to Shaftesbury building will follow in February 2023 (further communications will follow on this). As a result, the locations for a number of our wards will change from November, including appointment locations for our Adult Outpatient teams. (CAMHS services changing location within the site will do so in January 2023 and remain unchanged in 2022 – more will be shared on this nearer the time.)

To support awareness of the 2022 changes for partners referring to our services, please **see below a breakdown of the new referral locations and the dates that these come into effect. We ask that information held by partners is updated as appropriate. Also included below are details of our address change which has now come into effect and three suggested actions for partners.**

Referral processes remain unchanged – referrals should still go directly to teams and appointment letters issued by the Trust will be updated as appropriate.

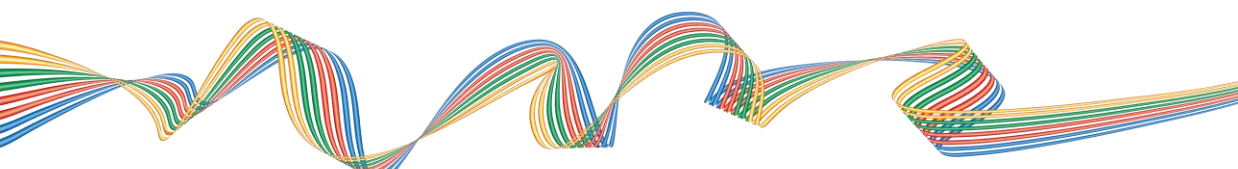

*More about the moves to the new Trinity building including information for patients and service users (floor and site maps, webinars, FAQs etc) can also be found [on the Trust website](#)*

**Referral location changes and dates**

**Please ensure the new locations are used from these dates for any referrals:**
