

Mayfield Children's Centre nursery at Springfield

Mayfield Nursery provides childcare at Springfield University Hospital, the headquarters of South West London and St George's Mental Health NHS Trust. It is available to both NHS staff and the wider community. It is open from 7.30am to 6pm, five days a week.

The nursery offers high quality childcare for children aged between three months and five years. It provides a caring and stimulating environment, enabling each child to reach his or her potential. Staff work to ensure that every child feels included and valued as an individual.

Mayfield Nursery is supported by parent group and other interested people. It is a member of the National Day Nurseries Association and therefore receives additional support from a childcare and education adviser.

The nursery accepts a variety of childcare vouchers and is registered to accept Nursery Education Grants for those eligible children aged between three and five years.

Staff employed by South West London and St George's Mental Health NHS Trust may be able to pay their fees through a salary sacrifice scheme.

More information
